

BOARDS

INFLATABLE SUP

MATIRA

PHILOSOPHY

PASSIONATE ABOUT SUP, WE ARE CONSTANTLY LOOKING FOR NEW SHAPES AND NEW MODELS TO MAKE THE PRACTICE EVEN MORE ACCESSIBLE TO ALL. THE MATIRA INFLATABLE RANGE ARE BOARDS THAT ARE RESISTANT TO IMPACTS AND CRUSHING, PERFECT FOR TRAVELERS, FAMILIES, CHILDREN... WHEN FOLDED IN THEIR BAGS, THOSE BOARDS ARE EASY TO TRANSPORT (CAR OR PLANE) AND TAKE LITTLE STORAGE PLACE.

DESIGNED FOR ALL TYPES OF WATER CONDITIONS AND PRACTITIONERS, WE'VE ADAPTED THEM TO WIDTHS FROM 30.5" TO 33" FOR ACCESSIBILITY. IDEAL FOR CRUISING, THEY PERFORM SURPRISINGLY WELL FOR SURFING THANKS TO THEIR STIFFNESS AND SHAPE QUALITY. INCLUDED WITH THE BOARD IS A BAG AND A PUMP SO YOU CAN EASILY GET THEM ANYWHERE AND INFLATE THEM ON THE SPOT.

# INFLATABLE BOARDS

*MATRA*

**8'6"**

8'6" x 30.5"  
259 x 77.5 cm  
156 L

**9'6"**

9'6" x 32"  
290 x 81.5 cm  
182 L

**10'6"**

10'6" x 33"  
320 x 84 cm  
324 L

INFLATABLE SUP  
**MATIRA**

PROGRAM

8'6"

The 8'6" is designed for small riders, **children, teens** and for **girls**. This board is super easy and stable thanks to its width of 30.5"; It is very resistant to impacts and ideal for a **first approach** to SUP.

The inflatable technology is more adapted for **children's safety** because the inflatable boards are less dangerous to an impact.

DIMENSIONS

Length	8'6" / 259 cm
Width	30.5" / 77.5 cm
Thickness	4" / 10 cm
Volume	156 L

Equipped with three soft fins

INFLATABLE SUP  
**MATIRA**

PROGRAM

9'6"

Its length of 9'6" allows to keep enough **directional stability**, with good gliding ability for cruising. Thanks to its 32" width, it remains **easy to use** and **stable**.

It is short enough to handle the surf with ease. With its 4 inch (10 cm) thickness, **engaging the rail is simple** allowing more performance oriented surfing.

With dimensions of 9'6" x 32", the board is rigid due to its compact size, and **is forgiving**. The result is a great board choice for all spots.

DIMENSIONS

Length	9'6" / 290 cm
Width	32" / 81.5 cm
Thickness	4" / 10 cm
Volume	182 L

Equipped with soft front fins and a removable and more rigid rear fin.

**MATIRA**

PROGRAM

# 10'6"

The full potential of the "Inflatable" technology is on display with this size board - where other rigid boards become very heavy once you exceed a certain volume, the **inflatable stays light!**

This board is 6 inches thick, which provides a good sized volume, ideal for beginners or bigger riders. Solo or in tandem, the 10'6" is **indestructible** and can take a beating.

Ideal to learn on and for casual rides it's surprisingly rigid, **stable** and **fast** - you will be able to catch your **first waves with ease.**

DIMENSIONS

Length	10'6" / 320 cm
Width	33" / 84 cm
Thickness	6" / 15 cm
Volume	324 L

Equipped with soft front fins and a removable and more rigid rear fin.

# TECHNOLOGIES

The **Drop Stitch** is an incredible technology, originally developed for the hull of inflatable boats or canoes. With a grid composed of vertical threads, it allows to keep the top and bottom surfaces of the inflated board parallel. Our quality of construction allows a safe inflation pressure of 17 PSI.

The **differences in quality and technology** are easily identifiable by the strength of the materials we use and our method of construction, the rigidity and the fluidity of the outline and rocker. Adapting the shapes of our rigid boards is a necessity in the design of inflatable boards because the rigidity is different, as well as rail profiles and fins.
